

A CAREER IN ENERGY AND ENVIRONMENT

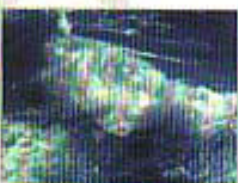

The University
of the South Pacific

Solar Energy

Wind Energy

Sea Energy

Environment

A Physics Degree from the University of the South Pacific offers you the opportunity to complete a first degree (BSc), and Post-Graduate qualifications (Postgraduate Diploma in Physics, Masters, Doctorate)

Specialising in courses in environment and energy.

Consult the School and Applied Sciences Handbook and Physics website for courses and programmes details.

The physics department offers a unique opportunity to do research in these issues relating to small islands.
